SAM EBENEZER AKWASI AFRIMU

Final Year Information Technology Student
Accra, Ghana | 0244 203 222 | sameben0123@gmail.com | linkedin.com/in/sam-ebenezer-6115b540b

BIOGRAPHY SUMMARY

I am a dependable, detail focused individual who enjoys learning new things and taking initiative wherever I find myself. Whether I am building something from scratch, supporting a team, or teaching others, I bring patience, curiosity, and a strong sense of responsibility to my work. I work well both independently and as part of a team, and I care about doing things properly rather than quickly.

SKILLS

Hard Skills: Full Stack Development, Frontend/UI Development, Backend Development, Database Management (MySQL, SQL Server), Facial Recognition Systems, Git/GitHub, Networking (LAN/WAN), Mobile Money API Integration, Microsoft Excel, Microsoft PowerPoint, Microsoft Word

Soft Skills: Communication, Teamwork and Collaboration, Organization and Attention to Detail, Problem Solving, Self Motivation and Initiative, Adaptability, Time Management

KEY PROJECTS

Smart Booking System for Local Services
Full Stack, GPS Matching, Mobile Money API | Full Stack Developer

- Personally built the frontend, backend/database, GPS based artisan matching logic, and Mobile Money payment integration for a platform connecting customers with local service providers in Ghana; capstone project, maintained in a GitHub repository, currently in active development.

Apartment Booking System
Full Stack, Booking and Reservation Logic, Admin Dashboard | Full Stack Developer

- Personally built the frontend/UI, backend/database, booking and reservation logic, and an admin dashboard for a property booking system as a final year capstone project.

Face Recognition Based Attendance System
Facial Recognition, Database Management | Lead Developer

- Independently designed and built a facial recognition system automating student attendance tracking; authored a 60 page technical document covering design, implementation, and evaluation as a final year project.
